

# Serviced Apartments vs Hotels,

## SPACE

Serviced apartments allow for much more use of space. You aren't restricted to a small hotel room, quite often you will have the whole house to 'live' in with gardens and other associated benefits that this brings. Serviced apartments are typically much bigger and more comfortable than equivalent hotels.

## COST

Rates for Serviced Apartments are lower than similar local hotels. Loyalty and long stays are rewarded with discounts offered for longer stays. Cancellation policies are much more flexible than local hotels, so you can book with confidence and in the knowledge that you have a better and bigger space and value for your money.

## HOME

Providing a safe, secure, comfortable and enjoyable space is paramount to Mercury Serviced Apartments. We like to make your apartment a home from home so that you feel at home whilst staying away, whether that be for work or play. Allowing you time to relax, enjoy and unwind.

## FREEDOM

Once you've booked in, that's it until you check out. It's yours to use as you like. You can work, rest or play as the mood takes you and what's more, there's no need to book any meeting rooms - just host it in the dining room or living room - True freedom

## COOKING

Serviced Apartments all come with their own fully equipped kitchen, allowing you to cook your own or your family's favourite meal without having to leave the house and splash out on expensive restaurants or takeaways. Definitely the healthier option.

## LOCATION

Serviced Apartments can be in the thick of things and amongst all the attractions, but sometimes, the best ones are off the beaten track which allows for a full change from the day scene and allowing quality time and space to relax, enjoy and unwind on your own or with friends and family.

## FAMILIARITY

With your own kitchen and separate living and sleeping space, serviced apartments allow you to maintain your normal routine. There's no setting the alarm for 7am to go down for breakfast at 7.30am allowing you to follow your daily routine. And return when you like too !

## HOUSEKEEPING

Probably the best part of a Mercury Serviced Apartment stay is that you can experience the best of both worlds. Home style living with hotel service. Daily cleaning and a linen collection service are provided for you as part of your stay.
